

Bank & Trust Company Partners with Infovisa

Cornelius, North Carolina – March 30, 2018 – Infovisa, a leading provider of wealth management solutions to the trust market, has implemented a new technology offering for Bank & Trust Company of Litchfield, Illinois as Bank & Trust prepares for growth.

On the decision to select Infovisa's offering, Roger Krabbe, Senior Vice President & Director of Wealth Management said, "It was a good decision on our part to make the conversion." Krabbe indicated that Bank & Trust has realized greater efficiency, flexibility and control over their daily environment with the benefit of enhanced client service. Krabbe went on to say "I can now customize how I review data so that it meets my needs. It's so nice that everyone can use the solution to complement their process, not take away from it." Bank & Trust offers trust & investment management services to a variety of clients including foundations.

"We are excited to have Bank & Trust Company join the growing Infovisa client base", said Mike Dinges, Infovisa's President & CEO. "We have seen organizations like Bank & Trust Company prosper and grow by implementing our products and services. The tight integration of trust accounting, portfolio management, account review, and performance measurement along with our new Infovisa Client Portal, help bank trust departments focus on winning new business and retaining existing AUM", Dinges went on to say.
